Cable Factory BITNER

Cable Factory BITNER, a modern company established in 1996, is one of the largest manufacturers of cables and wires on the Polish market. The company ethos is based on the most modern technology whilst having the most reliable and proven team of ca.400 experienced employees. In the production of our cables we use most up-to-date machinery and superior quality raw materials which enable the company to offer full range of cables up to 30kV.

Cable Factory BITNER guarantees professional and complete customer service, flexibility, technical support and timely deliveries. The factory also applies significant pressure on the quality of manufactured products, paying special attention to quality management system's procedures, protection of the environment and workflow. Its present

position is the result of a constant, dynamic development of product range, modernization of production processes, IT investments as well as continuous development of employees' qualifications and improvements in logistics that allow Cable Factory BITNER to compete effectively on both domestic and export markets.

Leading products

Cable Factory BITNER offers a wide range of products, covering LV and MV (rubber insulated) cables up to 30kV. We are focused mainly on the niche markets which determinate the branches and types of products we are constantly developing. The most popular products include:

- Offshore cables acc. to BS6883 and BS7917, NEK606, LR and DNV certified

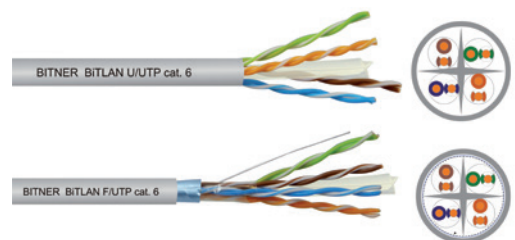

- Mining cables – rubber insulated and sheathed up to 30kV

- Mining/Tunnelling cables, trailing/reeling types (up to 30kV)

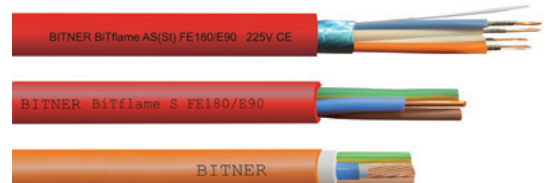

- LAN cables

- Control and drag chain cables (BiTflex®) for continuous bending

- Fire resistant cables

Why BITNER?

Here at BITNER, we have been serving the cable industry since 1996. Over those 20 years, we have gained experience that was inevitable in developing our technology, logistics as well as human and social capital. It is our great pleasure to share these experiences with our customers, exceed their expectations and contribute to their success.

We guarantee:

- Wide range of LV and MV cables (up to 30kV)
- High quality products
- Production of custom-made cables
- Low production and logistic MOQ's
- 2 years warranty period
- Professional service and quick response making process
- Quick deliveries (ca. 5 weeks production time)
- Excellent logistics: deliveries via sea, road and airfreights
- Experienced technical staff and professional technical support
- Modern machinery in production facilities of 25 000 m².

Awards and Distinctions

Cable Factory BITNER has achieved the position of one of the largest cable manufacturers in Poland. The quality and effectiveness of operation of the company is attested by many different Institutes and confirmed by steadily growing number of customers and prizes awarded, e.g.:

- the Business Gazelle prize awarded by "Puls Biznesu" magazine to the company a number of times
- nomination for "Poland Now" emblem ("Teraz Polska")
- 1st place and the title of European Company in a competition organized by "Gazeta Prawna" magazine (2007)

- the title of Good Company 2007 (Dobra Firma 2007) in a ranking organized by "Rzeczpospolita" newspaper (20 best Polish companies)
- the Forbes' Diamonds 2008 commendation ("Diamenty Forbsa 2008") and the Forbes' Diamonds Award in 2009 ("Diamenty Forbsa 2009") for the best companies, awarded by FORBES monthly
- "Elektroproduct Roku 2008" award for safety systems cables and numerous prizes for innovative products and solutions.
