About ELKO-BIS

The ELKO-BIS Lightning Protection Systems was established in 1998 in Wrocław, Poland. The effective commercial policy, high manufacturing and service standards as well as the choice of the best staff made it possible for the company to grow dynamically and become, very quickly, a leader in the lightning protection business in Poland. Presently, the ELKO-BIS lightning protection equipment is distributed via the best wholesale houses and shops in Poland and abroad, among others in Russia, Ukraine, Lithuania, Latvia, Czech Republic. The ELKO-BIS lightning protection system protects many prestigious building facilities and thousands of dwelling houses.

The offer of ELKO-BIS constitutes the full lightning protection equipment with accessories, enabling the choice of elements for each building facility: industrial, housing, historical and sacred, commercial and service, office, public utility, or sports facility. The product range is split into product groups and the products are available in various material and color versions. We select, pack and ship the goods within three days. We are specialized in supplies of non-typical solutions. We listen intently to the needs of our Customers since their satisfaction is our key objective. Our Customers allow us to attain successes every day.

The offer of ELKO-BIS constitutes the full lightning arrester equipment with accessories, enabling the choice of elements for each building facility.

We guarantee the top quality of our products and services, which has been confirmed among others by:

- PN-EN 62561-1:2012 standard Certificate of Compliance
- Safety Mark B
- Declaration of Conformity with PN-EN 62305 series standards
- Quality Management Certificate to ISO 9001:2008
- Business Reliability Certificate as well as by numerous awards of business industry fairs.
