Corrugated Pipe

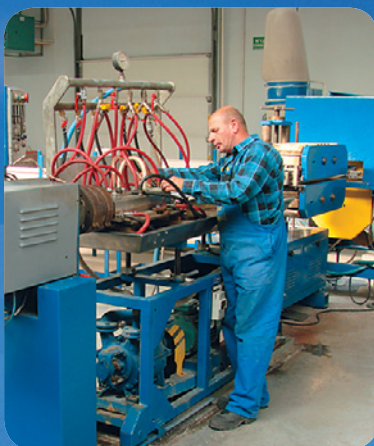

UV resistant

About company

Elmark is a family-run company with traditions dating back to 1983. We employ 40 people in the manufacture of plastic profiles. Among other uses, our products are designed for: wiring/cabling protection, computer and TV systems, communication systems, power systems.

We operate extrusion, injection and blow-moulding production lines, a toolroom with CNC machine tools and our own transport base. We are a shareholder in the Plastic Valley Tarnów Industrial Cluster.

We are a shareholder in
