# Cables and wires for all applications

**ELTRIM**, Kable Company was founded in 1989 and became one of the first privately-held wire manufactures in Poland. Strong market demand after systemic transformation in Poland (politics, economy and open market) contributed to the dynamic growth of the company. Eltrim gradually introduced new products into the market, becoming, within a short period of time, one of the leaders on the Polish market. In 2007 the company was converted into a limited liability company.

Eltrim headquarters is located in Ruszkowo (North-central Poland). The production process takes place in 5 production halls. The company's infrastructure also includes warehouse, cable storage yard, laboratory, quality control and workshop.

At present Eltrim employs over 200 people. We sell our products in Poland and overseas, including 30% export value (Russia, Germany, Austria, Norway, Sweden, Romania, Italy, Lithuania, Estonia).

Except for the production of wires and cables, Eltrim provide the following services:

- Drawing wires from copper and aluminum or aluminum alloys;
- Stranding multiwire conductors: from copper wires class 2 /rigid/ and class 5 and 6 /flexible/ or from aluminum or aluminum alloy class 2 /rigid/;
- Designing special construction of wires or cables according to client needs. Our service includes the design, production and logistic.

# Currently our offer includes:

- About 10.000 different constructions of cables and wires
- Cables and wires with copper Cu, aluminum Al or aluminum alloys conductors, solid (RE, SE) and multiwire class 2, (RM, RMC, SM) and class 5 or class 6
- Insulation made from PVC, PE, XLPE, LSOH, TPE, TPU
- Screening Cu, CuSn, or Armouring Fe, FeZn (tapes and wires)
- Nominal voltage from 300V to 6kV

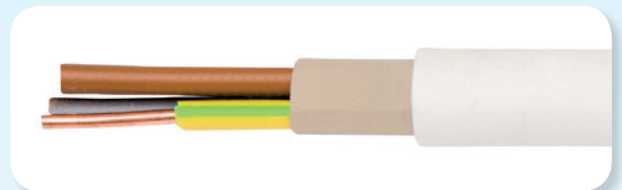

## Cable Groups:

- installation wires,
- flexible wires and cords,
- Power Cables 0,6/1kV up to 6/6 kV (also screened and armoured ones),
- halogen free cables,
- overhead lines (bare and insulated ones),
- control cables also for motor power supply – SERVO,
- copper/aluminum stranded conductors,
- copper grounding wires and cables for lightning protection
- Special constructions ( eg. cars, mines, railways, photovoltaic installations etc.)

## Below You can find some examples of Our products:

### Installation wires

(type H05V-U/R/K, H07V-U/R/K, H05V2-U/R/K, H072V-U/R/K, H05VV-F, NYM, NHXMH)

### Power cables

0,6/1kV, 3,6/6kV and 6/6kV

(type NYY-J, NYY-O, N2XY, N2X2Y, NYBY, NYRY)

### Overhead Cables

(type AAC, AAAC, ACSR)

### Overhead wires self-supporting isolated

0,6/1kV and 12/20kV (type CCST, CCSX, NFA2X, EX, ALUS, AMKA)

### Halogen free cables

0,6/1kV

(type N2XH, NA2XH, N2XCH, NA2XCH, NHXH )

# Why Eltrim?

Continuous investment in newest technology and modernization of the machine park has led to our product-range expansion. We cooperate with research units to constantly improve our products. We use the best quality raw materials: copper, aluminum, PVC, polyethylene and others. Advanced technology and quality control are guaranteed by the ISO 9001 Quality System which has been in operation in the company since 2000. We enjoy great trust amongst our clients in Poland and abroad. Each stage of co-operation with our clients includes paying attention to being professional.

Our 30 Years of experience on cable market provide good quality product for a reasonable price.

We offer wide product range (about 10 000 cable constructions). Our continuous improvement of logistic system and stock for typical products provide short delivery time. Our experienced staff listen to Your needs and can design special cable construction acc. to individual requirements. We guarantee counseling and assistance and we strive to make each of our clients feel special.

## Prizes and Awards

The activities of our company and high quality of our products have been appreciated by experts of the Polish Centre for Testing and Certification Body during the contest „Quality of the Year”. The „Quality of the Year 2012” was awarded to our company for the following: effective implementation of quality policy, the clarity of procedures, high degree of staff involvement in achieving quality objectives, attention

to providing the highest quality products and services, the effectiveness of the organization's management. The contest „Quality of the Year” is organized by the publisher of the “Business Report” of newspaper “Dziennik Gazeta Prawna” and Polish Center for Testing and Certification “PCBC”.
