

engineering – manufacturing

ERGOM Z.A.E. Sp. z o.o.

www.ergom.com

ERGOM Z.A.E. is a Polish company with over 25 years of experience.

Founded by two engineers, the company has grown to become the market leader and one of the best brands on the Polish electrotechnics market. We are also very successful abroad, every year we supply our solutions to **over 50 countries worldwide.**

Our mission is to recognize **customer's needs** and to cater to them. We accomplish this via **complementary offer** of high quality products and good service. Every day over **14,000 products** from our offer are used in energy, electrotechnic, automotive, telecommunications, medical and building industries.

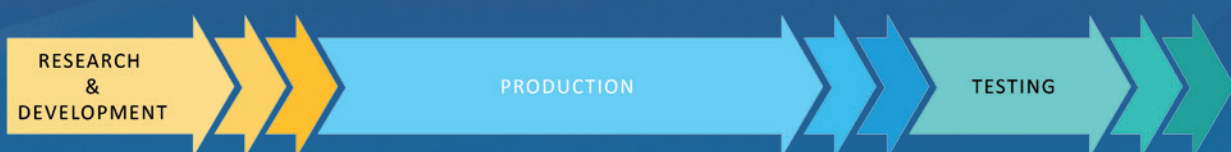

Our **code of ethics** have led us to establish very good relations with business environment and mutually fruitful cooperation with thousands of companies. In Poland our products are available in offers of every recognized wholesaler (over 1,000 outlets). We have a great number

of partners abroad, mostly in Europe (Western, Central and Eastern), Africa and Middle East.

We are an **engineering company**. Our engineers constitute about 16% of our staff. Our actions can be defined by a single, constant process:

design=> prototype, research => production
=> testing, quality control => validation, certification

Thus, we are able to supply not only products created and tailored to customer's needs, but also **complete solutions.**

CABLE TERMINALS

- Cord-end terminals uninsulated and insulated
- Female and male push on connectors insulating casings
- Uninsulated and insulated ring and fork terminals
- Terminals, insulated receptacles
- Aluminium tubular terminals
- Copper tubular terminals uninsulated and insulated
- Bimetallic terminals

TOOLS

- Tools for cable treating
- Hand crimping tools
- Tools for work under 1000 V
- Cutters and cutting heads
- Hydraulic presses, crimping heads and dies
- Tools for busbars
- Punching tools and blanking dies
- Hydraulic pumps

WIRING ACCESSORIES

- Cable ties
- Cable holders
- Cable ducts
- Marking systems
- Cable glands
- Corrugated tubes
- Steel tubes
- Electrotechnical materials

ENCLOSURES

- Steel enclosures and switchgears
- Insulators and cable holders for rails and cables
- Busbars, busbar clamps and holders
- Distribution blocks
- Universal screw terminal blocks
- Joints and protection clamps
- Installation Terminal Blocks and Holders
- Heavy duty connectors IP65
- Fans, filters, temperature controllers and semiconductive heaters

As a reliable partner, we have benefited many times from EU programs, that have led to an **increase in technology level**, increase in quality, **development of our offer and increase in employment**. We are focused on **continuous development**. We have been granted many awards, which have affirmed our commitment toward development and innovation, such as: "Export Leaders", "Business Gazelles", "National Innovation Leader", "Reliable Company". We have also been awarded "Certificate for Business Creditability". We work in compliance with **ISO 9001**.
