THE MADEX CABLE FACTORY

The Madex Cable Factory has been on the market since 1988. We are a renowned supplier of cables and wires. Our production lines are equipped with machinery and industrial equipment supplied by the best branch manufacturers like the Gauder Group Setic SAS, the Northampton Machinery Company, the Henrich and the Beta Lasermike.

While taking care of process and product quality we have implemented the ISO 9001 Quality Management System ISO 9001 and the ISO 14001 Environmental Management System.

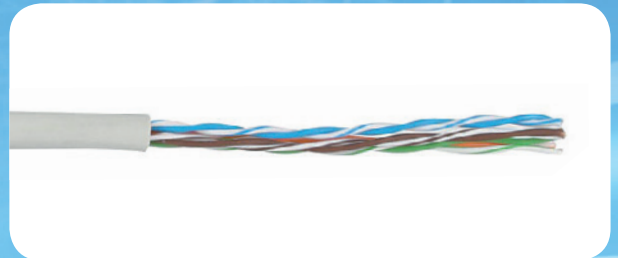

A comprehensive assessment of the quality of the input materials and the final output products is ensured for us by a fully computerised research and control laboratory equipped with the latest generation of the AESA Cortailod devices.

Leading products / services

The factory specialises mainly in manufacturing copper data transmission and telecommunication cables, as well as it manufactures cables for mining, power industry, safety systems.

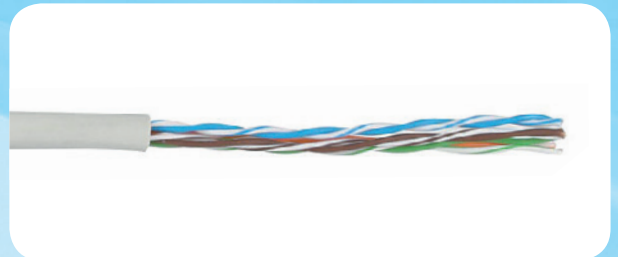

- Data transmission cables, unshielded with solid conductors, internal
U/UTP 4PR 24AWG Cat. 5e

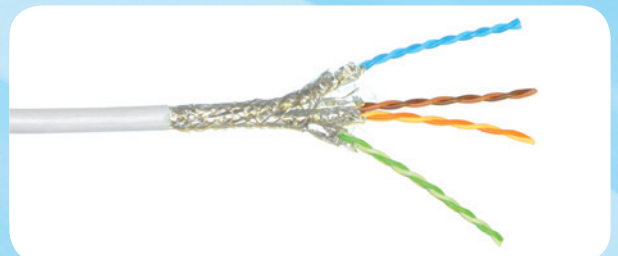

- Data transmission cables, shielded with solid conductors, internal
F/UTP 4PR 24AWG Cat. 5e

- Data transmission cables, unshielded with solid conductors, internal
U/UTP Ultralink 4x2x0,5 Cat. 5e

- Data transmission cables, shielded with solid conductors, internal
S/FTP 4PR 23AWG Cat. 6

- Data transmission cables, shielded with solid conductors, internal
S/FTP 4PR 23AWG Cat. 7A

Why „Madex”?

Our goal is to offer the best quality products at competitive prices while providing the most convenient date and place

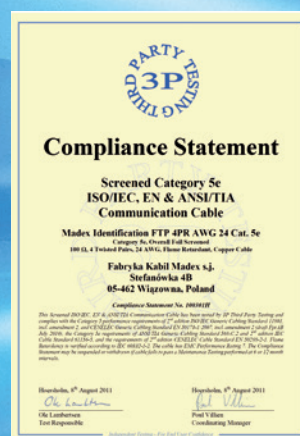

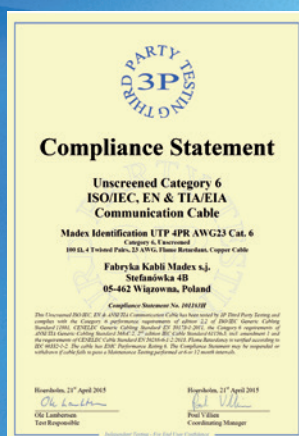

of delivery for our Customers. We constantly improve our processes and products for our Partners and Customers.

Awards and Distinctions

The cables offered by us fulfil the quality requirements being in force on the contemporary market for cable industry products. It is confirmed by the Certificates held by us.

The quality of the entire process of manufacturing data transmission cables, not only of their electrical parameters, is confirmed by the certificates given to us by the Danish 3P Third Party Testing Company – which are honoured all around the world.
